Comments	<input type="text" value="I wish to object to this application. There seems to be little change in this application from the one withdrawn in September. This lane is narrow and difficult to negotiate at any time. With further development it will be even more difficult because of increased traffic to the building site, no formal turning area (the land beyond the gate at the end of the lane is privately owned), plus the time of the building works, if this was passed, would be extremely inconvenient for all because of the narrow width of the lane and bearing in mind currently there is difficulty obtaining building materials so the development may well take twice as long as the proposed time span. Narrow village lanes are not suited to development, such as this application, which would cause so much inconvenience to existing homes. I object to this application on the grounds stated above."/>
