Comments	<input type="text" value="The site is currently rural farmland. Covering it in concrete ruins biodiversity and landscape. This is not a city/town location (as per J11/ Banbury. It is a rural location. This development would kick of a chain reaction of development all along the A43, benefitting no one in the local communities other than selling and developing the land. The local infrastructure cannot support increased lorry traffic and the baynards green/J10 junction doesn't work as it is."/>
