Comments	<input type="text" value="This proposed warehousing is NOT in the interests of local residents. The ONLY advantage there could be to anyone (other than the proposers) is that there may be some new jobs. However the number given is vastly overstated and misleading. The environmental damage will be great. The damage to residents peace and wellbeing also great. There should be a more fair way to check the views of local residents.....most people know nothing about this. And the process of objecting seems to be deliberately difficult."/>
