Comments	<p>This development will cause so much more traffic using the B4100 through Aynho which already is used as a rat run for commuters, causing more harmful fumes and noise. During rush hour there are long queues on the A43, blocking the Baynards Green junction from Bicester, causing long tail backs towards Stoke Woods. Once again, our countryside will be raked up, pulling down hedge rows, trees, killing our already depleting wildlife, all for massive ugly buildings to take their place. There are plenty of empty industrial units in Bicester, Banbury and Brackley - which are easily accessible from the M40. Are the councils/government really worried about climate change by digging up our countryside and creating more traffic? I think not.</p>
