Comments	I strongly object to the proposed development. 1. Our village already suffers from noise pollution from the M40 and the increased traffic using the B4100 to access the M40 at Baynards Green. This development would increase this noise even more both during its construction and once it's in use and it would be day and night. This would be detrimental to our health and well being. Even though my house is not directly on the B4100 I can still hear the traffic especially at night. 2. Air pollution will increase which would be detrimental to our health. 3. Its negative visual impact and loss of a green field site with all its flora and fauna. 4. The strong possibility that the vibration from lorries driving through would cause structural damage to the listed housing facing onto this road as well as causing damage to the dry stone walls. 5. The B4100 has sharp bends in the centre of Aynho where there have been many serious accidents.
