Comments	I wish to object to this planning application due to its proximity to Aynho Village and feel that Its impact during construction and when built and operating will be significant . We already have too many lorries and heavy goods vehicles passing through the village causing damage to the road and verges and any increase will have a disproportionately negative impact on the village and living here. Many properties in the village are very old and listed and the increase in noise, vibration and pollution can only be detrimental to dwellings and residents. Aynho is a beautiful village and it is a real pleasure to live here but we cannot accept the consequences that would result from this development. One partial solution would be to establish an HGV weight limit and routing agreement away from the B4100 (West), to avoid Aynho becoming even more of a 'rat run' between Bicester, Banbury and the M40.
