Comments	<input type="text" value="Unnecessary destruction of green space and land needed for agriculture and animal habitats. Increased road traffic on already congested roads. Cross road junction into Ardley is particularly dangerous at rush hour and is situated just down the road from this, added congestion will only worsen the risk of an accident at this junction especially combined with speeding vehicles. Large scale warehouses increase flood risk for surrounding areas. Warehouses and associated activities will create additional noise/pollution/visual impacts for the nearby Fewcott conservation area. English countryside and villages must be preserved, not overshadowed by huge structures."/>
