

Comment for planning application 21/03267/OUT

Application Number	<input type="text" value="21/03267/OUT"/>
Location	<input type="text" value="OS Parcel 0006 South East Of Baynards House Adjoining A43 Baynards Green"/>
Proposal	<input type="text" value="Outline planning permission (all matters reserved except for access) for the erection of buildings comprising logistics (Use Class B8) and ancillary Office (Use Class E(g)(i)) floorspace and associated infrastructure; construction of new site access from the B4100; creation of internal roads and access routes; and hard and soft landscaping"/>
Case Officer	<input type="text" value="David Lowin"/>
Organisation Name	<input type="text" value="Clive Hockley"/>
Address	<input type="text" value="11 Duck End,Hinton-in-the-Hedges,Brackley,Northants, NN13 5 NF"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input 'green="" -="" a="" and="" at="" be="" by="" concrete="" countryside."="" development="" do="" have="" in="" interspersed="" is="" jungle="" just="" land'="" loads'a'money".="" middle="" natural="" not="" of="" pleasant="" plonked="" point="" roads="" tarmac="" the="" this="" type="text" value="I suspect these comments will be totally ignored as they are not really planning reasons for turning this abomination down. The paperwork just makes vague assertions that nationally there is an need for warehouses - OK there might be - but in this rural Oxfordshire parish there is no demand - apart from the developers wish! There are a lot of documents to wade through, but first glance there appears to be no traffic assessment impact on the A43. This road is currently enduring up to 600 HGVs a day from the M40 with HS2 requirements. Junction 10 of the M40 is unfit for purpose. There are current warehouse builds at Silverstone, Towcester and Northampton South which also plan to use the A43 for south bound loads - now two dirty great warehousing for even more logistics are proposed to add to the A43!! Again, a quick look through the paper work does not seem to include the real reason for these plans, namely, we (the developers) want to make " we="" what="" which="" will=""/>
