Comments	<input type="text" value="The building of warehouses, etc., will almost certainly have a detrimental effect on the local area, in particular Stoke Wood. This stretch of woodland should be protected at all costs from the negative environmental impact which such building works would bring, like the upheaval to wildlife and natural established habitats. There are several, more suitable, locations which could sustain these sort of structures. In fact there are already buildings in place up and down the M40 corridor which could be used. Once green land is gone, it's gone forever. Please no more. Bicester is rapidly being surrounded by warehousing on all sides. So much for it being labelled a garden town or a healthy town."/>
