Comments	<p>Dear Planning Committee, I would like to object to this proposal. I have been a resident of Stoke Lyne for over 20-years and enjoyed the countryside setting. I made a choice to live in a village for easy access to the rural walks, peace and quiet. The choice meant not having the luxury of nearby shops, doctors, no bus service, and basically having to spend more money than I would in a town, however I did so to be in a rural and relatively quiet location. Consequently, you can imagine how concerned I am to hear that warehousing is being proposed to be located within a mile of our village which will change all this. This will ruin our home and community with the increased traffic, noise, light and pollution not to mention the destruction of our beautiful countryside! I am very familiar with warehousing and the effects on the surrounding area, despite any rose coloured lens offered by the land agent it will bring with it not only the vehicles of those working there but an endless stream of HGV's and service vehicles, maybe refrigerated vehicles, lifting equipment, shunting vehicles, each supporting and maintaining the site, 24-hours a day 365 days a year with no rest! Each will create noise, with their engines and warning sounds, light and pollution. We currently have an array of wildlife within the area which most of us in the village are passionate about. This will have a detrimental effect on them, our way of life, devalue our property and damage our beautiful community. I object to this proposal due to the enormous negative impact it will have on the lives of all of our community. Yours sincerely, Ellen Whitney</p>
