Comments	<p>Having lived in Stoke Lyne (at the edge of the village) for 5yrs, the noise of traffic from A43 / M40 is a continual background sound & is audible throughout the day/night, enhanced especially during warmer months when windows are open. When walking in the village or in the garden, the traffic sound levels are always there - therefore any increase in traffic activity will become unbearable for residents of Stoke Lyne. Heavy lorries / Building Vans & vehicles used to carry construction goods to people working onsite will cause complete chaos and increase pollution significantly in the environment. It is a rural village area and retains great wildlife for animals, plants & birds - which will all be placed in jeopardy with this new proposal for warehousing and all that it entails. This is a fragile time in our planet & world to retain an ecological balance - this proposal would devastate the surrounding lands. For a future perspective, vehicles travelling to / from said proposed warehousing will be significant- there is no housing available in the area to cater for an increase of personal so they would have to drive to work.</p>
