<b>Comments</b>	<p>As a resident of Fritwell village I am very aware of the level of traffic on the Baynard's Green roundabout already. Since we moved to the village in 2007 we have seen a huge increase in traffic cutting through to get to Bicester and Banbury which has caused issues with speeding, congestion and road safety - especially for my primary age child walking to and from school on narrow village roads. This proposed development will only increase traffic congestion, pollution and pressure on local road systems. We moved to the village because we wanted to live in the countryside - that is being eroded all the time, as are the field systems between villages in the area with the constant expansion of Bicester, new developments in Bucknell and extensions to the Kingsmere estate which will see villages like Chesterton and Bucknell be eaten up and swallowed into a mass of development. The countryside is worth fighting for because it is peaceful, beautiful, sustainable and clean compared to sprawling acres of brutalist concrete warehousing to transport 'stuff' that is killing our planet and destroying natural beauty. Who wants to live in an ugly, concrete jungle that has covered the good earth we should be protecting? Light pollution, noise pollution, traffic pollution, congestion, mess, litter filled lay-bys and hideous buildings for the sake of making someone else, who no doubt lives in a lovely house in a leafy area even richer! NO thanks.</p>
