Comments	<input type="text" value="We object to this application on the following grounds: - This development will irreparably damage the rural nature of this area. With 2,000 plus jobs anticipated, this location has low unemployment so these workers will have to come from somewhere else and this will put pressure to build accommodation for these workers in the area - in other words, potentially urbanising a rural area forever. - This development will bring unsustainable levels of traffic congestion to an area already overburdened with busy roads - no matter what traffic scheme is developed. - These plots are reasonable quality farmland, there can be no good reason to concrete over productive farmland for warehousing, there must be brownfield sites to redevelop. - DHL already has a site in Bicester, and another (now believe closed) in Banbury - how much damage does DHL want to do to our environment? - The attendant noise, air and light pollution that will come with this development will be unacceptable. - Biodiversity offset in Piddington! so damage the wildlife and hedgerows in this are to offset the vandalism of this site elsewhere is neither just nor fair."/>
