Comments	<input type="text" value="We live on Croughton Road Aynho on the B4100. It is already a very busy and dangerous road through the village and this will add substantial traffic to the road in the form of trucks and commuter traffic. It is already hard to get to the B4100 from Bicester due to the volume of traffic currently on the road and it is not usual to wait 10 minutes to get onto the motorway. The road from the M40 to the A43 is badly designed and often congested also. This development will have a significant impact of the local environment and on the health of those living on Croughton Road through increase fumes and noise as trucks and cars are held up outside our house due to the dangerous bend in the village. It will be rat run from the B4100 to this development for all transport coming from Milton Keynes. This is a very badly conceived plan as the area is already very busy and there is not the infrastructure to support the level of development planned."/>
