Comments	<input does="" landscaping"="" not="" replace="" this."="" type="text" value="We have lived here since 1987. In that time the A41 was detrunked to the B4100 on the opening of the M40. J10 has been re-built, added to and redirected so many times I have lost count! This is all due to the heavy use of this junction and the A43/B4100. We have seen the steady increase of traffic on the B4100 which includes HGV'S using the B4100 to A43 instead of the M40 as this junction is always so conjested. You only have to listen to the local traffic news every day and without fail J10 to J9 on M40 is conjested. Linking that to the A43 and we already have a major problem. This planning application can only add to this. We need a solution to the conjestion not further add to it. Our local woods and wildlife being destructed along the way. "/>
