Comments	<input type="text" value="I strongly object to the proposal for the building of warehouses on unspoiled countryside. This area of North East Oxfordshire needs to be protected from this sort of development. I have lived in the village for 35 years and have always marvelled at the beauty of the countryside and the calming influence this has on ones well being. Over the last week since being advised of the proposed development I have tried to visualise how this could work and its impact. Clearly it would completely devastate the countryside, with no way back. Also the many people who travel from the M40 to either Bicester or Brackley must similarly share the pleasure of the area, the gentle rolling fields, the outline of the woods at every glance. We really can't allow such insensitive concepts, clearly taking no consideration on the damage caused. I have recently read Lark Rise to Candleford. Although set over a hundred years ago, the descriptions of the land, hedges, streams, woods is still unchanged. We really can't destroy this for some warehouses. Having seen what J11 area of the M40 at Banbury now looks like following the building of the warehouses, surely this can't be seen as the 'blue print' for the rural countryside of England. I beg of you please do not allow this proposal to happen. Kind Regards Michael Huw Lloyd"/>
