It would therefore be inappropriate to have the developments proposed in applications 21/03266, 03267 and 03268 at such a location and I would like to register my objections. There is no sizeable local community to staff such a development no public transport to bring workers in from elsewhere. Leaving aside how unpleasant the construction phase would be for local residents, once complete as well as generating extra traffic in terms of HGVs delivery to and from warehouses etc, there would also be extra vehicle movements from staff driving to and from work. I have lived in Stoke Lyne since the mid 90s and I have watched how traffic levels at the Baynard's Green roundabout have increased over the years. It has become increasingly difficult to cross that roundabout and sometimes you need nerves of steel. Delays and tailbacks already occur at peak hours with emissions from stationery vehicles polluting the air. I have a friend in Bicester who will not use that roundabout, preferring to drive to Banbury by a longer " villagers="" villages.="" visual="" volumes="" we="" which="" wildlife,="" will="" worse.="" would=""/>
