

Comment for planning application 21/03268/OUT

Application Number	<input type="text" value="21/03268/OUT"/>
Location	<input type="text" value="OS Parcel 2636 NW Of Baynards House Ardley"/>
Proposal	<input type="text" value="Outline planning permission (all matters reserved except for access) for the erection of buildings comprising logistics (Use Class B8) and ancillary Office (Use Class E(g)(i)) floorspace; construction of new site access from the B4100; creation of internal roads and access routes; hard and soft landscaping including noise attenuation measures; and other associated infrastructure"/>
Case Officer	<input type="text" value="David Lowin"/>
Organisation Name	<input type="text" value="Rebecca Munday"/>
Address	<input type="text" value="Garden Cottage,Swifts House Farm,Street From Baynards Green To Bucknell,Stoke Lyne,Bicester,OX27 8RS"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I am writing to whole heartily objective to this application. I have lived on the B4100 for nearly 20 years and whilst the drive alone this road is aesthetically beautiful it is an extremely dangerous road already. If you compare the fatalities on this road to the average in the D of T Road causality report it is already considerable above average for a B road. this road can not cope with the massive increase in traffic this application would provide, without loss of more lives. The application suggests the boast to the economy and employment, both of which are not needed in Bicester however many other areas need this far more. We already have Bicester village which provides both these benefits, other counties could benefit far more from this employment. everyone would have to drive to the route as there are no buses on this road. My main concern is the wildlife. I believe granting this permission would be against the Wildlife and countryside act 1981 as we have proof that badgers, a range of bat species, newts and I am sure if we looked hard enough dormice can be found on this land. We have nesting Barn owls on at least two fixed locations on this road and they are the ones in boxes with cameras fitted. they have successfully nested for over 5 years now and we have worked hard with conservationists to make this happen. I appreciate there is a need for more warehousing with more business on line, however this needs to be in areas where the increase in employment is needed and the impact on the environment and wildlife is less."/>
