<b>Type</b>	<input type="text" value="neighbour"/>
<b>Comments</b>	<input type="text" value="My wife and I wish to strongly object against the proposed 5G mast being planned for the junction of Bletchington Road and Station Road. We do not believe that such a mast should be placed in such a position in the village. It will be an absolute eyesore in a village which prides itself with it's upkeep displaying rural charm. Looking at the other locations in Kirtlington which were considered before choosing this one it is apparent that the applicant is desperate to put a mast somewhere whatever the consequences to villagers. There are many homes nearby which will have this mast in their direct eye line and I do not understand why it has to be within the village boundary. We have excellent fibre-optic broadband in the village and I do not concede that there is demand or any benefit to villagers. When you are considering this application please listen to the many voices of villagers who will be concerned at such a monstrosity. Thank you"/>
