| Comments | <input type="text" value="This is a residential area with lots of children and it is not the place to put a 5G mast. I have a 1 year old and 4 year old that will live within 10 metres of this mast and it is not appropriate position at all. Not only is there an issue for residents in terms of possible health issues, it is also an eyesore in a conservation area. I actually can't think of a worst place to place this mast. I would like to see this application rejection and the mast moved to a more appropriate position away from residents houses and young children"/> |
