

Comment for planning application 21/03350/TEL

Application Number	<input type="text" value="21/03350/TEL"/>
Location	<input type="text" value="Street Record Station Road Kirtlington"/>
Proposal	<input type="text" value="Proposed 5G Telecommunications Installation"/>
Case Officer	<input type="text" value="John Cosgrove"/>
Organisation Name	<input type="text" value="Philip Burdge"/>
Address	<input type="text" value="44 Nuffield Close,,Bicester."/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="Not only is it an eye- sore, but it will also be emitting EMFs' to the surrounding environment. The deleterious effects are well documented, and information on this is readily available on the internet. Young children are especially susceptible to its effects. The residents in the surrounding area have not been contacted to get their opinion as to whether they need additional 5G coverage. The present availability seems to be adequate, otherwise the residents would have complained by now. Also there is a very high probability that the owners of these masts are including mass surveillance technology to gather data about the populations action/likes etc. A despicable invasion of one's privacy and human rights. Should the company wanting to erect and use this mast, they should offer each resident in a 20 mile radius, a payment of at least 20 per month for as long as the mast is in place."/>
