Comments	<input type="text" value="This proposed mast siting is in the conservation area and as such should be rejected. The site is prominent from homes, on entering and leaving the village and cannot be masked. The proposer could consider a site a few hundred yards out of the village (towards the golf course) to gain height and get out of the conservation area. Alternatively at the radar site at Enslow where there are many large dishes away from houses. They may have to look to private landowners to achieve this but that is not of concern to this application. I urge the council to visit the site before making a decision to truly understand the impact. Imagine that this was where you live."/>
