<b>Comments</b>	<input type="text" value="I am objecting to this ludicrous decision to erect a 5G mast on the entry to Kirtlington at the junction of Bletchingdon road and Station road. It will be a complete eyesore and not only will it stand out and be totally out of the character of the rest of the village but it will be in very close proximity to nearby homes and its a conservation area. I really can't see why there is a demand for this at all , I work from home and the broadband is fine, this is a rural village not a town or a city. If you have to put the mast somewhere for what ever reason there are better places it can go, where it will be away from houses and people."/>
