Comments	<input type="text" value="Every effort should be made to preserve and protect the environment. This mast doesn't do that and I don't believe it should be built here. The proposed area is in a space that will ruin the view and the feel of the village for so many. I don't think there has been any effort made to ask the community their opinion for a 5G mast in the first place. Many say the signal is more then enough so it seems like a waste of time, money and energy."/>
