<b>Comments</b>	<input type="text" value="I object to this application due to the location. Described as the quintessential English village, Kirtlington is a beautiful, well looked after village cared for by the community. It is a rural village in open country, so why position such a mast so close to the village? It will be unsightly at best and the location is thoughtless at worst. I note the applicants are from Reading and Leeds, a town and a city nothing like a rural well looked after village. I wonder if the applicants have visited the village to see how inappropriate this location is, or is the the least cost effective location for them. It will be a blot on the landscape if it is positioned so close to the village. I strongly object to this application as there are plenty of open spaces well out of sight to 'hide' such a mast, without being with in view and spoiling a thriving community."/>
