<b>Comments</b>	<input type="text" value="I wish to object to the proposed erection of a 15M 5G mast on the land at the junction of Bletchington Road and Station Road in Kirtlington. Having lived in the village all my life, this application shows a total of lack of respect by the applicants to residences of the village by proposing to erect this hideous mast so close to residential area and will be the first thing people see when entering the village via station Road. There are plenty of alternative locations where the mast could be situated where it would not be quite so intrusive. Such as the mast which is located outside the village of Ardley On the B430 as you approach Ardley from Middleton Stoney which is also in the Cherwell Valley . I therefore ask you to look very seriously and look at the potential damage it will do and this is why I feel that planning permission should to be refused"/>
