| Type of Comment | <input type="text" value="Objection"/> |
| Type | <input type="text" value="neighbour"/> |
| Comments | <input type="text" value="I am fully in favour of 5G coverage in the village, and a mast to provide this in the village surrounding environs, BUT not in this inappropriate. location. 1. Visually prominent in the village and in plain sight of a very large number of residences. 2. noticeable to all traffic, and may need an intrusive red light on top as on a flight path. 3 impacts the village aim of maintaining village visual integrity with minimal intrusive street furniture. There are many areas around the village that would be very suitable and probably there are local private landowners who would be very pleased to get better reception than the lamentable coverage we have at the moment. A corner at the edge of the golf course, high-ground in the woods at Stud, there are plenty of places that would be suitable."/> |
