Comments	<input type="text" value="I object to this proposed application. I believe that the intention to place a 15 Metre mast and the variety of associated metal cabinets is totally inappropriate in a conservation area and so close to many residential properties. One of the planning drawings shows a large mature tree close to where the proposed mast would stand but this is no longer there and the ugly metal structures would be isolated and dominate the corner of Oxford Road and Bletchington Road and the surrounding area. The Kirtlington area is well served with fibre optic cables underground and excellent WiFi so I cannot see the benefit or need for this new 5G telecoms installation in the village. Susan Brown"/>
