Comments	<input type="text" value="I cannot believe that you are proposing to erect a 5g mast on this corner in the village. This part of the village is a conservation area, and an enormous and unsightly mast will utterly ruin this part of the village. I will be on full view to everyone who travels through the village, and residents who live nearby. Have you actually been to visit the proposed site. This is almost the worst site in the village to place this mast, just marginally better than the graveyard. Yes we want and need 5g in the village, but let's have some sense as to where you place your mast. Set up a consultation with the villagers to find the least objectionable site for this mast."/>
