Subject: Development opposite Hanwell Fields

Dear Rebekah

I have read about the development of houses opposite Hanwell Fields I live locally and I am dismayed to see more of the countryside developed Not only with houses but with children needing schools and roads with more cars locally which could create great problems When will it all stop Surely this side of Banbury has enough developments Only the developers will profit The Council will have to improve and staff all the local amenities and does that mean we will all pay increased rates?

What are we doing to our lovely countryside and the nature Please do not let this go ahead My husband and I totally object to this development Thank you
