Comments	<input type="text" value="The positioning of this proposed mast would result in significant harm to the look of the surrounding area, being a modern construction without any architectural merit, close to an attractive historic area. It would be a visually ugly structure which would be an imposing object blocking views of beautiful farmland scenery, spoiling the outlook for local occupiers and for visitors. There would also be concern about the potential devaluation of local property due to its ugliness. The positioning of a such a mast should take into account the needs of the local residents and a less visually prominent position should be sought."/>
