It is considered that the increased scale would not cause harm to the character and appearance of the area. The principle of a replacement dwelling in this location is considered acceptable. Subject to conditions, it is considered that the development would not cause harm to the residential amenity or highway safety. However, the design of the proposed dwelling is not locally distinctive and this would need to be amended in a future planning application. Locally distinctive materials would need to be used and the dwelling should have the design of a house reflective of its north Oxfordshire context. Any future planning application for proposals that satisfactorily address the concerns set out in this letter would be considered favourably.
