Comments	<input type="text" value="It is sad we have elected people that we thought cared about us as a community, next election will be different. All it seems that CDC cares about is bringing in the money, I'd like to see what would happen if you all lived in our community. The Woodstock Road is already over traveled, we will have to spend twice as much time in our cars polluting the air, even more, I thought we were trying to cut down on this. What about what we share with our families, walking on a beautiful weekend morning teaching our children how to respect nature and wildlife. The flooding in this area is a problem, peoples houses and belonging are being ruined with water flooding into their properties. Building additional houses is going to add to this problem only making it worse. I know all these objections that you will be reading are only going on deaf ears, no houses = less income. I hope you can sleep at night knowing you are harming our countryside."/>
