Comments	<input type="text" value="As someone who has had their family home here since 1966, and worships at St Bartholomews Church in Yarnton. Our Parish is joined with St Michaels in Begbroke and each church has to pay their Parish Share calculated on the number of households in each village. By linking both ancient parishes with this I'll thought out, monstrous development , which will not be in keeping and detrimental to each village 540 dwellings is going to increase our parishes shares, which can't be Met even now. No one has mentioned this and it'll make it even more difficult to meet, unless they are all going to be churchgoers, highly unlikely. Therefore the developer, or more likely Oxford University, should be made aware of this and compensate the two parishes they are going to wreck."/>
