Comments	<input type="text" value="Langford Village has been exposed to more and more flooding since the increased development. Area proposed sits well below the roadway and currently is an amazing important flood area to the estate. To develop on this area not only put at risk current residents. It risk the nature reserve being ruined for both wildlife, insects and nature. This is not a suitable area to build and be left in its current state. To support building on this land would be to ignore the safety of the local area."/>
