Comments	<input type="text" value="Object to shared use of Gavray drive. Another 250 houses would average around 500 additional cars on this road, impacting congestion, noise, pollution and local wildlife. I feel this will be detrimental to the Langford area. The land in my opinion is not suitable for development due to renowned flooding and any overflow into Langford brook causes risks for current residential properties as well as making roads and footpaths inaccessible after heavy rain. With all the rail construction and other numerous building developments currently on going within Bicester and surrounding areas, we do not want further disruption to our local community. Further development should not be authorised especially without an increase in services such as doctors, dentists etc. Additionally further measures should be put in place to slow traffic and ensure 30mph speed limits are adhered to."/>
