To whom it may concern,

Good evening.

As a resident of Whimbrel Close I am strongly opposed to the building of any houses on Gavray Drive in Bicester.

The land on Gavray Drive is home to many species of wildlife, including muntjac deer, which I often see whilst walking in the meadows.

The amount of traffic and noise and disruption and pollution that a housing development would bring to this area would not only shatter the peace and quiet of Gavray Drive, but also destroy the habitats of the wildlife that live here.

I often walk over Gavray Meadows, and as a local resident I firmly believe that this area should be left untouched, so as to be enjoyed by the thriving wildlife that inhabit it, and by the local residents alike.

Kind regards,

Miss Lynsey Wells
