Comments	<input type="text" value="We moved to a village for a reason. There are only approx 240 residents living here and as such the air pollution is minimal. The roads through Bucknell are not suitable for effectively 3100+ cars, when the B4100 was shut due to a road accident what should be a quiet country lane became a rat run that if you were walking down it you probably would have been knocked over due to no path. We have beautiful footpaths to walk around the countryside which will be swallowed up by a housing estate and with all the houses currently planned I fail to see why it is necessary to loose small villages."/>
