**Dear Sir or Madam,**

**21/04275/OUT Outline Planning Permission Part OS Parcel  
8149 adj Lords Lane and SE of Hawkwell Farm, Lords Lane,  
Bicester**

***I am deeply saddened and concerned regarding the above  
proposed planning permission which is intending extending  
the original boundary to encroach on greenbelt land and  
taking away popular and well used footpaths. The village  
should remain a village and not become part of Bicester. I  
Oppose This Plan vigorously.***

***Bucknell is a beautiful, historic village occupied by people who  
have lived here for many years and who value the village life***

***and what it has to offer. The proposed extended building will take that all away. There will be light and air pollution, not to mention the ridiculous increase of traffic (6000 plus) on roads already overloaded from the Eco town and not fit for purpose.***

***There needs to be an urgent meeting for the village in order that all can be made aware of what is proposed. There have been few noticed erected and there should have been a letter posting least of all.***

***These issues must be addressed urgently and the matter delayed. Please do not take our children and their children's future of country life away from them***

***Sincerely,***
