Comments	<input type="text" value="The issues I have are traffic pollution. This village is struggling now and the road structure is very poor and narrow. Water drainage and sewerage. We constantly flood and this contains raw sewerage because the system is not fit for purpose, The air and light pollution will be 100% above what it is now, already spoiled by the Viridor and landfill depots and the M40 which is already blocked many times of the week. The noise will be such that birdsong, wildlife and countrylife will be no more. Safety of pedestrians and children on a lane already busy with a church and play area on it plus footpaths and bridlepaths, a loss of village identity. You cannot sit in an office and dictate what happens to a lifestyle you have no knowledge of and which will affect so many people. Come for a walk one day and we will show you what you propose destroying - I beg you"/>
