Comments

Bicester has seen vast development over the years and all for profit without any consideration taken for the residents of Bicester and surrounding areas. There is not sufficient infrastructure to support more expansion. My current route from my home address now takes an extra 6 minutes than it did 3 years ago and now have to allow 20 mins to drive 7.3 miles. Considering my working hours are out of peak travel times this journey can take 30 mins during rush hour. How much effect my comments have remain to be seen because as we know money talks and big developers can use there funds to sway decisions for the benefits of themselves and associates. Serious consideration needs to be taken in to account of the residents of Bicester and surrounding towns and villages. I remember when Bicester had green space and wildlife but sadly that seems to be a thing of the past that is guickly disappearing. Sadly my children will grow up knowing more about traffic and how long commuting takes rather than learning about life and nature
