Organisation	<input type="text" value=""/>
Name	<input type="text" value="Tracey Matthews"/>
Address	<input type="text" value="83 Bucknell Road,Bicester,OX26 2DF"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="We do not have the correct infrastructure for this new development. The ten tonne bridge redevelopment has been stopped so the realignment of Howes lane is not happening. This junction between Howes lane, Bucknell Road at the bridge junction is already terrible. Far too much traffic using a junction that is not big enough to cope. Far too many extra houses being built on green areas without the proper infrastructure being sorted out first. All of the roads through Bicester are gridlocked in the mornings and evenings now without more developments and what about the environmental impact. Bearing in mind the need to lower carbon footprints we need to avoid building houses where cars are needed and need more wild areas to off set the damage we are doing. More houses will uproot local wildlife, trees, shrubs and bushes which are imperative for all."/>
