Comments	<input type="text" value="The little village it is now, is perfect it does not need to be made bigger or joined onto Bicester. It's going to effect all of the wildlife and the people who live there, that village is homes to some old couples who have lived there their whole life and it's all going to be ruined when this is being built. The amount of pollution that is going to happen it's going to kill the world that little bit more and we definitely do not need that in this world. I can see the pros of having this but there are so many more cons though."/>
