<b>Comments</b>	<input type="text" value="Obviously over 3100 houses, means thousands more people and cars on the roads in and around Bicester, clogging the whole road network and town way more than it is already now with the added increased pollutions. Enough is enough! Bicester has 'sucked up' enough land; the loss and destruction of yet more fields with all their beautiful wildlife and flora, put over to yet more concrete and run off with all the resultant consequences. Yet another village would be swallowed up. Please see sense and stop building around Bicester.it has had more than its fair share over the last 30 years or so!"/>
