Comments	<input type="text" value="How many more green field building sites is Bicester going to take for housing, surely there is enough already. There is already not enough infrastructure to support what is already there, not enough schools, doctors surgeries, shopping facilities, etc. The roads are already clogged up with traffic, every other truck you see is an 8 wheel tipper.Soon we will be surrounded by huge housing estates, and the then more huge warehousing from Heyford road to Baynards Green, and then down the B4100 towards Bicester. Take a step back Cherwell and look what you are doing to the country side, we will soon desperately need all the farm land we can get to support this country and to look after ourselves, and not rely on countries like Russia for our needs. Stop it now, we don't want our small communities overwhelmed, look after what we have left, before it's too late."/>
