Comments	<input type="text" value="Cannot believe Bicester is being destroyed by non stop building. Less and less wildlife in the area, serious reduction in wild birds in the area. The amount of traffic already causing gridlock as soon as there are any roadworks within the ring road. This development is going to built outside the existing ring road and the existing eco village has already massively impacted the area. Council needs to consider the existing population before increasing the size of the town. We haven't got the infrastructure for the houses we have at the moment."/>
