Comments	<input type="text" value="Strongly opposed to the development of 3000+ new properties, with nhs doctors surgeries and dentists etc already in dyer conditions the town cannot cope with this many new homes being built even with an additional surgery it wouldn't cope with the influx of residents. Seeing the plans only having 3 main entrances with the projected amount of traffic that would be coming in and out of the development this is going to cause a shocking amount of traffic on top of what is already an area that suffers with shocking amounts of traffic, not to mention what further problems the pollution due to the influx of traffic will cause to wildlife and current residents health."/>
