Comments	<input type="text" value="Here we go again I cannot believe we're facing yet more development in this beleaguered area. We have surely fulfilled our share of development in Oxfordshire. It seems that there is no consideration given to the views of people who live here. It is meant to be a democracy but time after time our comments seem to be ignored. Enough is enough. Yet again there seems to have been no thought given to the traffic situation that this is going to impact. The A 4095, once again, is going to see a vast increase in traffic as will Bicester itself. The improvements to the junction at Howes Lane and Bucknell Road have been shelved and for some reason the money set aside has been diverted to Abingdon; improvements are needed now If this development is allowed to go ahead it will prove to be intolerable. Environmentally we are losing all the arable land which surrounds us and protects us from the pollution that the high level of development in the area causes. Other developments in the pipeline,Wolf Resort, warehouses, Siemens, additional housing in Chesterton and the Business Park in Bicester Avenue will also impact on the area once they have been completed. Focus on health and clean air have been headlined but Cherwell seems oblivious to the importance of health in this area. It is time to take stock and stop. I whole heartedly object to this development."/>
