Comments	<input type="text" value="I don't believe that this planning application has been thought through properly with regards healthcare and dental services, schooling and transport needs and community services in general. 3,100 houses will add a substantial number of residents and traffic to the area. It is not at all clear how important local services and infrastructure will cope with such an influx.....I don't object, per se, to development that caters for urgent housing needs but I do object to it when huge pressures on local services have not been thought through or catered for....lip service to those needs is simply not good enough."/>
