Type	neighbour
Comments	<p>I object very strongly to the Hawkwell Project there is so much that will be lost first of all the village of Bucknell the people did not choose to live with the intention of being swallowed up by the town of Bicester most people i know that live there live there so they DONT live in a town. The ecological effect with be catastrophic so much wild life and the natural habitat will be lost we are suppose to be preserving the planet not destroying it, concrete will be poured into the ground and where will all the water go too that lays on the fields as a natural flood defence so the increase in flooding which is happening more and more because land is being built on. Pollution will be increased by all the extra cars my experience of the "said" Eco village that has already been built is that most of the houses have great BIG 4x4s parked up outside not very Eco friendly. The houses are not affordable as they are trying to make out a lot of them have been bought up by people who rent them out at a huge rate. So all in all i don't see a very Eco so called "Village" at all just people who want to cash in and ruin our Beautiful countryside.</p>
